

The move checklist - Be ready and don't forget

3 MONTHS BEFORE THE MOVE

- Set the date of your move
- Inform the lessor if you are a tenant or inform the trustee if you are an owner
- Organize the move with professionals

Did you know? The notice period is 3 months for an empty unit, but only 1 month for a furnished unit or one located in a stretch area.

15 DAYS BEFORE THE MOVE

- Make an inventory of the new housing and identify key addresses in the city
- Sort your belongings, take the opportunity to donate or recycle them
- Make the boxes by keeping essential items close

Note: an inventory of the entrance must be made when handing over the keys, usually on the day of signing the lease, and annexed to the rental contract.

THE DAY OF THE MOVE

- Make an inventory of your old home
- Record your electricity and gas consumption if the dwelling does not have connecting meters and pass them on to your supplier
- Note the latest index of the water meter and communicate it to your supplier

To know: you can make a preliminary inventory of the exit several days or weeks before your departure in order to take stock of any work to be carried out

1 TO 2 MONTHS BEFORE THE MOVE

- Go to the town hall to register your children in their new school
- Inform your CPAM, your bank and your mutual fund according to your situation. But also the pension funds, the CAF, the tax authorities...
- Request the cancellation or transfer of your telephone subscription and your internet box
- Cancel your home insurance and take out a new one (even if you don't change insurer)
- Open a new gas and/or electricity contract. But also cancel your old energy contracts.

Note: you can take care of the termination of contracts from 42 days before your move if the dwelling you are leaving is equipped with communicating meters.

AFTER THE MOVE

- Apply for moving premiums and assistance: you have 3 to 6 months after your move to do so
- Register on the electoral list of your new city
- Request the return of the deposit for your old home
